

## **ARTEMIS Call 2 opened for project applications**

The technology initiative ARTEMIS has opened the 2<sup>nd</sup> call for project proposals.

The objective of ARTEMIS is to strengthen the competitiveness of European industry in the area of embedded systems. In order to do so, ARTEMIS supports R&D activities through funding of the European Commission, the member states, and the industrial partners. The amount of funding provided by the member states will be around 105 Million Euros in this year's call. ARTEMIS is aimed at large enterprises, SMEs, research institutes and universities.

The project application goes through a two-stage procedure: A Project Outline gives an initial overview of projects. After feedback receiving from the evaluators, Full Project Proposals are required.

**Deadline for Project Outlines: 15<sup>th</sup> April 2009**  
**Deadline for Full Project Proposals: 3<sup>rd</sup> September 2009**

The registration for the applications has to be done electronically through the ARTEMIS Proposal Service (APS). Any further information, application templates and access to the APS can be found on the ARTEMIS website:
